A BILL FOR AN ACT

RELATING TO CLIMATE CHANGE.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF HAWAII:

1 This Act shall be known as the Hawaii Climate SECTION 1. 2 Adaptation Initiative Act. The legislature finds that climate 3 change is the paramount challenge of this century, posing both 4 an urgent and long-term threat to the State's economy, 5 sustainability, security, and way of life. 6 The 2012 Pacific Islands Regional Climate Assessment found that throughout the Pacific, warmer and drier conditions will 7 8 decrease fresh water supplies. Rising sea levels, exacerbated 9 by storms, will increase coastal flooding and erosion, damaging 10 coastal ecosystems and infrastructure and affecting agriculture, 11 tourism, military bases, and other industries. Higher sea-12 surface temperatures will increase coral bleaching, leading to 13 coral death and habitat loss. Increasing ocean acidification 14 will have negative consequences for the entire marine ecosystem. 15 In the long term, open-ocean fisheries will decline. Rising 16 temperatures, and in some areas reduced rainfall, will increase the risk of extinctions. Threats to the traditional lifestyles **17** 18 of indigenous communities may include destruction of coastal

- 1 artifacts and structures and reduced availability of traditional
- 2 food sources and subsistence fisheries, which will make it
- 3 difficult for Pacific Island communities to sustain their
- 4 connection with a defined place and their unique set of customs,
- 5 beliefs, and languages.
- 6 The legislature further finds that beach erosion, drought,
- 7 and rising temperature are already having measurable impacts on
- 8 Hawaii and are expected to accelerate in the years to come.
- 9 With beaches continuing to erode, rain continuing to diminish,
- 10 and sea levels projected to rise one foot by 2050 and three feet
- 11 by 2100, Hawaii is highly vulnerable.
- 12 Act 286, Session Laws of Hawaii 2012, created climate
- 13 change adaptation priority guidelines encouraging collaboration
- 14 to address climate change and recognizing that it will impact
- 15 the following: agriculture; conservation lands; coastal and
- 16 nearshore marine areas; natural and cultural resources;
- 17 education; energy; higher education; health; historic
- 18 preservation; water resources; the built environment, such as
- 19 housing, recreation, transportation; and the economy.
- 20 In 2013, Hawaii's landmark policies were included in the
- 21 international Majuro Declaration for Climate Leadership when
- 22 Hawaii signed on as the first sub-national government, after

HB1714 CD1 HMS 2014-3345-1

- 1 which President Obama appointed Governor Abercrombie as one of
- 2 eight governors to the State, Local, and Tribal Leaders Task
- 3 Force on Climate Preparedness and Resilience.
- 4 Hawaii is one of the few coastal states that has not
- 5 adopted a statewide climate adaptation plan, yet is among the
- 6 most vulnerable.
- 7 The legislature also finds that it is time to ensure that
- 8 Hawaii adapts to the effects of climate change before the
- 9 effects grow beyond the State's ability to prevent the worst
- 10 impacts on Hawaii's economy, environment, and way of life.
- 11 The purpose of this Act is to address the effects of
- 12 climate change through 2050 to protect the State's economy,
- 13 health, environment, and way of life. Recognizing Hawaii's
- 14 unique geography as the only island state and its susceptibility
- 15 to sea level rise, the initial focus of this Act is to address
- 16 the impact of sea level rise on Hawaii and to support ongoing
- 17 climate change adaptation efforts of the State by:
- 18 (1) Establishing an interagency climate adaptation
- 19 committee, attached administratively to the department
- of land and natural resources, to develop a sea level
- 21 rise vulnerability and adaptation report for Hawaii
- through the year 2050;

1	(2)	Authorizing the office of planning to coordinate the
2		development of a statewide climate adaptation plan and
3		to use the sea level rise vulnerability and adaptation
4		report as a framework for addressing other climate
5		threats and climate change adaptation priorities
. 6		identified in Act 286, Session Laws of Hawaii 2012;
7		and
8	(3)	Allocating funds and creating positions to carry out
9		these purposes.
10	SECT	ION 2. The Hawaii Revised Statutes is amended by
11	adding a	new chapter to be appropriately designated and to read
12	as follow	s:

- 8 potential impacts of climate change, the committee shall, as a
- 9 first step, focus on and develop sea level rise vulnerability
- 10 and adaptation reports that shall include:
- 11 (1) Identification of the major areas of sea level rise
- impacts affecting the State and counties through 2050;
- 13 (2) Identification of expected impacts of sea level rise
- 14 based on the latest scientific research for each area
- 15 through 2050;
- 16 (3) Identification of the economic ramifications of sea
- 17 level rise;
- 18 (4) Identification of applicable federal laws, policies,
- or programs that impact affected areas; and
- 20 (5) Recommendations for planning, management, and
- 21 adaptation for hazards associated with increasing sea
- level rise.

Report Title:

Majority Package; Climate Change Adaptation Planning; Interagency Climate Adaptation Committee; Appropriation

Description:

Addresses climate change adaptation by establishing the interagency climate adaptation committee under the DLNR to develop a sea level rise vulnerability and adaptation report that addresses sea level rise impacts statewide to 2050. Tasks the office of planning with establishing and implementing strategic climate adaptation plans and policy recommendations using the sea level rise vulnerability and adaptation report as a framework for addressing other statewide climate impacts identified under Act 286, Session Laws of Hawaii 2012. Appropriates funds for staffing and resources. (HB1714 CD1)
